

December 2020 Newsletter

As most of you have heard, the PASS organization will be closed on January 15th. We plan to continue hosting webinars and promoting women presenters and writers and are in the process of moving resources to <https://wit.sqlugs.com>. Our new Twitter handle is @DATA_WIT and email address is dataplatformwit@gmail.com.

Early next month, we will send another announcement through PASS with instructions for joining our new group. Note that as PASS group leaders, we do not have access to your email addresses, so it will be up to you to let us know if you want to continue to hear from us.

Each month we feature a blogger, and this month it is [Indira Bandari](#). Indira lives in New Zealand and is a Data Platform MVP. She is a BI Consultant and director at KidsTech.

Are you speaking at an upcoming user group meeting or another event? Do you have a blog you would like to promote? Let us know so we can feature your session or site in the newsletter. Send a note to dataplatformwit@gmail.com. We are also looking for women to present for our group, and this is a great way for speakers to gain experience.

We would like to thank our sponsors for supporting our group. They provide funds that make virtual groups possible.

SentryOne.

Accelerating performance
for data-driven business

SentryOne makes staying on top of the latest technology trends important to the SQL Server community easy by offering free webinars from Microsoft MVP's Kevin Kline, Aaron Bertrand, and other team members. [Check out](#) the upcoming topics and webinars on demand and ready to watch!

--Michelle and Kathi

Send a note to dataplatformwit@gmail.com to have your webinar or event promoted in our newsletter. At this time, since we do not know if other PASS virtual groups will be hosting their events, they are not included in the list below.

After January, our webinars will be hosted in a new platform. Details to follow early next month.
